

RM VerTable Interactive

RM VerTable Interactive is an innovative piece of design that combines elements of flexible furniture with interactive technology.

RM VerTable is an excellent height adjustable classroom activity table in its own right, but by integrating the revolutionary EPSON interactive projector RM VerTable displays two complimentary modes of use.

In its more traditional vertical setup it works like an interactive whiteboard for whole-class instruction and collaboration, but by simply changing it into table top mode, teachers can retain eye contact and physical engagement with a group gathered around the table.

It therefore becomes an incredibly powerful group collaborative tool, something that is difficult to achieve in a normal whiteboard environment. It's also totally mobile and height adjustable, so gives masses of flexibility as to who, how and where schools wish to make use of it.

It's incredibly simple to change from vertical to horizontal modes and back again – you just grab a handle on the back of RM VerTable and an assisted mechanism helps you drop it in place where it locks securely.

Education Benefits

- Supports flexible teaching and use in open learning spaces, with lockable castors, height adjust in both modes makes it more than just an interactive whiteboard!
- Great for all group work because of the level of physical interaction between teacher and group.
- Ability to flip between horizontal and vertical plains without switching off the projector means lessons maintain a natural flow and gives teachers flexibility to seamlessly switch between group work and whole class instruction.

Specifications

RM VerTable

Table surface
1800 W x 900 D mm

Approximate image size

- Height 82cm
- Width 112 cm
- Diagonal 142 cm / 56"

Height adjustment

- Horizontal (Table mode)
Table surface height -
715mm to 1075mm
- Vertical (Whiteboard mode)
Top of projection surface -
1310mm to 1670mm

Note: Floor to bottom edge of board
horizontal - lowest 41cm.

EPSON EB-455Wi

Device type
LCD Projector

Size
48.1 W x 36.9 D x 11.5 H cm

Weight
5.8kg

Image brightness
2500 lumens

Image contrast ratio
2000:1

Resolution
WXGA (1280 x 800)
Widescreen

Colour support
16.7 million colours

Lamp type
E-TORL UHE 230 Watt

Lamp life cycle
up to 2500 hour(s) / 3500 hour(s)
(economic mode)

Video input
RGB, S-Video, Composite video,
Component video IEEE
802.11a/g/b wireless (optional)

Audio output
Mono 12 Watt Speaker(s) -
integrated

3 Years Manufacturer Warranty
